

Monday morning at 10 o'clock we arrived at Stockholms östra (a railway station) where we got our tickets for public transport. Once that was done we took the train past beautiful landscape that looked like an autumn fairytale to Täby enskilda Gymnasium.

When we got into the school the Swedish students showed us around and we got a first impression of the French and Swedes. Then we had a presentation about our countries and played games to get to know each other.

After that we went to eat lunch in the cafeteria. When we were finished eating the Swedish students showed us their apple tree in the backyard where we all got a fresh apple. We have eaten the apple outside in the sun.

Then the Swedish students have brought pastries to eat which is called fika in Sweden. It's a common thing in Sweden. There were Swedish cinnamon rolls and a lot of chocolate pastries. After that we all went outside to take a group photo.

After school ended our hosts took us to Täby centrum (a mall) where we got to look around and shopped some secondhand clothes. We sit in Espresso house which is a cafe where we played funny games together. Then they took us home.
