After some minutes walk, in this beautiful water, and a short trip with a ferry.

above a river, we are at some tiny houses who older then all of us.

Every one don't know why we are there, but our guide told us why.

Skansen

Not only the animals in the zoo, get delicious meal for lunch, also we get it.

So we will see all of them. The best one is the one looks over the beard's,

because every one are so cute and you will get them.

After this interesting hour, we have a presentation about the Baltic Sea.

We learn the kind of fish, who there lives and why it's so important that the Sea don't die.

Evening

After so many nice informations we are very hungry, so we went to the city market who is called "Norrmarknaden".

There are so many different restaurants.
