

The game of entrepreneurship

When we arrived at 9 o'clock at Täby Enskilda Gymnasium, we played a game in groups of 6. The game was called The game of entrepreneurship and we had to brainstorm and create a project to have a better sustainable city. The winners got typical Swedish chocolate.

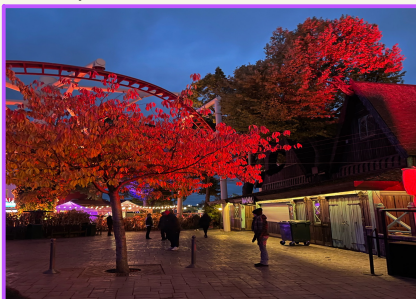

Finger food buffet

We made a finger food buffet with typical Swedish, German and French food and ate it together. It was very interesting to try the typical plates from the other countries.

Gröna Lund

At 16 o'clock we arrived at Gröna Lund, the theme park. We went to a lot of different roller coasters like Monsta, insane or Ikaros, one of the free fall towers. There were a lot of people walking around dressed as clowns or other scary things which scared the visitors and also us. It was very nice to see them but also scary when they appeared behind us. Finally, we also went into a horror house correspondent to Halloween and it was all very fun and scary.

At the end I would say it was a hard and large day but we had a lot of fun at the theme park.
